Hyun Go 고현

PhD Student, Department of Architectural Engineering
University of Seoul, 163 Seoulsiripdae-ro, Dongdaemun-gu, Seoul 02504, Republic of Korea

gohyun2000@uos.ac.kr · ORCID 0009-0007-0160-7882 · gohyun2000.github.io

RESEARCH INTERESTS

Seismic performance evaluation of steel structures · Nonlinear dynamic and incremental dynamic analysis · Seismic loss assessment · Pipeline-supporting structures (pipe racks) · Steel concentrically braced frames · Gusset-plate connections

EDUCATION

2025.03 – **PhD in Architectural Engineering**
University of Seoul — Advisor: Prof. Hyung-Joon Kim

2023 – 2025 **MS in Engineering, Architectural Engineering**
University of Seoul — Advisor: Prof. Hyung-Joon Kim
Thesis: *Seismic Risk of Pipeline Supporting CBFs Designed According to Different Seismic Design Requirements*

2019 – 2023 **BS in Engineering, Architectural Engineering**
University of Seoul

JOURNAL ARTICLES

2026 **Go, H.**, & Kim, H.-J. Equivalent single-degree-of-freedom model for the seismic fragility estimation of pipeline-supporting steel concentrically braced frames. *Journal of the Computational Structural Engineering Institute of Korea*, 39(5), 283–291. doi:10.7734/COSEIK.2026.39.5.283 (in Korean)

2025 **Go, H.**, & Kim, H.-J. Seismic risk evaluation of pipeline supporting chevron steel concentrically braced frames designed according to general steel design requirements. *Engineering Structures*, 343, 121200. doi:10.1016/j.engstruct.2025.121200

2024 **Go, H.**, & Kim, H.-J. Probabilistic seismic performance of pipeline supporting CBFs according to seismic design parameters and requirements. *Journal of Korean Society of Steel Construction*, 36(4), 229–241. doi:10.7781/kjoss.2024.36.4.229 (in Korean)

2023 Shin, Y.-S., **Go, H.**, & Kim, H.-J. Simplified FEA model for non-seismically detailed gusset plates welded to a column web only. *Journal of Korean Society of Steel Construction*, 35(6), 303–314. doi:10.7781/kjoss.2023.35.6.303 (in Korean)

2023 Shin, Y.-S., **Go, H.**, & Kim, H.-J. Compression buckling behavior and stress distribution of non-seismically detailed gusset plates welded to a column. *Journal of the Architectural Institute of Korea*, 39(6), 235–243. doi:10.5659/JAIK.2023.39.6.235 (in Korean)

CONFERENCE PRESENTATIONS

International

2025.11 **Go, H.**, & Kim, H.-J. Collapse capacity and pipeline leakage of pipeline-supporting chevron CBFs designed with general provisions. 13th International Symposium on Steel Structures & 14th Pacific Structural Steel Conference (ISSS-PSSC 2025), Jeju, Korea. isss.kr

2025.11 Kim, D.-W., **Go, H.**, Shin, Y.-S., & Kim, H.-J. Sliding and rocking behavior of medical beds under seismic excitations. 13th International Symposium on Steel Structures & 14th Pacific Structural Steel Conference (ISSS-PSSC 2025), Jeju, Korea. isss.kr

2023.11 Kim, H.-J., **Go, H.**, & Lee, H.-S. Dynamic characteristics of pipeline supporting steel frames without diaphragm. 12th International Symposium on Steel Structures (ISSS 2023), Jeju, Korea. isss.kr/2023

2023.09 **Go, H.**, & Kim, H.-J. Cyclic behavior of single and double-angle bracing members employed in pipeline-supporting structures. EUROSTEEL 2023, Amsterdam, the Netherlands. *ce/papers*, 6(3–4), 2226–2231. doi:10.1002/cepa.2293

Domestic

2026.11 **Go, H.**, & Kim, H.-J. A simplified nonlinear story-spring model for chevron steel concentrically braced frames considering unbalanced forces. Academic Symposium of the Computational Structural Engineering Institute of Korea, Gyeongju. (in Korean)

2026.06 **Go, H.**, & Kim, H.-J. Seismic response characteristics of pipeline-supporting CBFs designed according to general requirements for steel buildings. Annual Conference of the Korean Society of Steel Construction. (in Korean)

2026.04 **Go, H.**, & Kim, H.-J. A simplified equivalent single-degree-of-freedom model for seismic fragility assessment of pipe-rack steel concentrically braced frames. Annual Conference of the Computational Structural Engineering Institute of Korea, GIST, Gwangju. (in Korean)

2025.06 **Go, H.**, & Kim, H.-J. Pipeline leakage performance of chevron steel braced-frame pipe racks satisfying only general steel provisions. Proceedings of the Annual Conference of the Korean Society of Steel Construction, 36. (in Korean) dbpia.co.kr/journal/articleDetail?nodeId=NODE12342707

2024.07 **Go, H.**, & Kim, H.-J. Collapse performance of pipe racks with steel braced frames designed according to various seismic design standards. Proceedings of the Annual Conference of the Korean Society of Steel Construction, 35, Jeju. (in Korean) dbpia.co.kr/journal/articleDetail?nodeId=NODE11812973

2024.04 **Go, H.**, Shin, Y.-S., & Kim, H.-J. Seismic resistance of outdoor pipeline supporting steel braced frames according to their seismic design parameters. Annual Conference of the Computational Structural Engineering Institute of Korea, Jeju. (in Korean)

2024.04 Shin, Y.-S., **Go, H.**, & Kim, H.-J. Net-section fracture resistance of bolted gusset plates with various geometries and boundary conditions. Annual Conference of the Computational Structural Engineering Institute of Korea, Jeju. (in Korean)

2023.11 Shin, Y.-S., **Go, H.**, & Kim, H.-J. Calculation spread sheets for gusset-plate-connection strength. Academic Symposium of the Computational Structural Engineering Institute of Korea, Chuncheon. (in Korean)

2023.04 Kim, H.-J., Shin, Y.-S., & **Go, H.** Evaluation of existing design equations of buckling strengths for gusset plates welded to column only. Annual Conference of the Computational Structural Engineering Institute of Korea. (in Korean)

2022.06 **Go, H.**, Shin, D.-H., & Kim, H.-J. Finite element method of double angle bracing members supporting pipe-racks. Proceedings of the Annual Conference of the Korean Society of Steel Construction, 33(1), Jeju. (in Korean) dbpia.co.kr/journal/articleDetail?nodeId=NODE11115626

2022.04 **Go, H.**, Shin, D.-H., & Kim, H.-J. Hysteretic behavior of single angle bracing members supporting pipe-rack using a finite element analysis. Spring Conference of the Korea Institute for Structural Maintenance and Inspection, 26(1), Gwangju. (in Korean)

AWARDS & HONORS

2026 **Best Presentation Award**
Korean Society of Steel Construction — Annual Conference, structural division

2025 **Academic Award**
Korean Society of Steel Construction — for a journal article

2025 **Grand Prize, Outstanding Graduation Thesis Competition**
Architectural Institute of Korea — master's division

2022 **Best Presentation Award**
Korea Institute for Structural Maintenance and Inspection — Annual Conference, structural division

CERTIFICATIONS

2024.06 **Engineer Architecture (건축기사)**
National Technical Qualification, Human Resources Development Service of Korea

Updated November 2026
